

Prof. Peter Vester-Glowinski is Consultant Plastic Surgeon at the Department of Plastic Surgery and Burns, Rigshospitalet, Copenhagen, and Professor of Plastic and Reconstructive Surgery at the University of Copenhagen. He currently serves as **Head of Research** and **Head of Pregraduate Teaching** at Rigshospitalet, and is responsible for several research and educational initiatives within reconstructive microsurgery and translational science.

His clinical expertise covers complex reconstructive microsurgery across trauma, head and neck, extremity, and breast surgery. His research focuses on clinical trials, stem cell therapy, translational research, and cancer epidemiology.

Prof. Vester-Glowinski is **Executive Committee Member of the European Federation of Societies for Microsurgery (EFSM)** and **President of the Danish Society of Microsurgery (DMKS)**. He has played a central role in strengthening Nordic and European collaboration in reconstructive microsurgery and has organized multiple international meetings and scientific sessions.

He has extensive experience in raising research funding and supervise numerous PhD and medical student projects. He has contributed to building one of the most active clinical research environments in Scandinavian plastic surgery.
