

Assoc. Prof. Zdeněk Dvořák, MD, PhD - Head of the Department of Plastic and Aesthetic Surgery at St. Anne's University Hospital in Brno. The department provides a full range of plastic surgery and reconstructive microsurgery services and is one of two replantation centers in the Czech Republic. Zdeněk Dvořák focuses on head and neck reconstruction, particularly on the issue of nasal reconstruction and the role of microsurgery in complex nasal defects . He also focuses on transgender surgery, particularly female to male and multi-stage reconstruction of the male genitals with prelamination of the free flap with vaginal mucosa. He also deals with replantation surgery, hand reconstruction, and supermicrosurgery of lymphedema.
